

Let's plant one tree per child in Greater Shepparton

Healthy hygiene practices - Everyone needs to do their part in keeping the community safe by keeping their distance, covering a cough or sneeze and most importantly staying home if they are feeling unwell and get tested if symptoms are present.

One Tree Per Child

Community Group Expression of Interest (EOI)

Greater Shepparton City Council invites you to take part in our One Tree Per Child project in 2024. This global project aims to plant one native indigenous plant for every child aged under 18 years old annually. This year's target has risen to 25,500 and we need your help to reach this goal.

Volunteering for your community provides a number of benefits including leading to better health outcomes, making social connections and improving the local environment. Planting native vegetation creates habitat for local fauna and leads to meaningful change.

Council will provide free indigenous plants, guards, stakes, weed mats and planting equipment. Council can also assist in site location and facilitating a plant session.

Let's plant a tree for every child and enjoy watching the trees grow as our children grow

To get involved please complete and return the form below and return to:

- Email: onetreeperchild@shepparton.vic.gov.au or contact Council (03) 5832 9700.
- Post: Sustainability & Environment Branch, Greater Shepparton City Council, Locked Bag 1000, Shepparton VIC 3630
