## Notes to the Financial Report For the Year Ended 30 June 2016

#### Introduction

The Greater Shepparton City Council was established by an Order of the Governor in Council on 17th November 1994 and is a body corporate. The Council's main office is located at 90 Welsford Street Shepparton.

#### Statement of compliance

These financial statements are a general purpose financial report that consists of a Comprehensive Income Statement, Balance Sheet, Statement of Changes in Equity, Statement of Cash Flows, Statement of Capital Works and Notes accompanying these financial statements. The general purpose financial report complies with the Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards. Board, the Local Government Act 1989, and the Local Government (Planning and Reporting) Regulations 2014.

#### Note 1 Significant accounting policies

#### (a) Basis of accounting

The accrual basis of accounting has been used in the preparation of these financial statements, whereby assets, liabilities, equity, income and expenses are recognised in the reporting period to which they relate, regardless of when cash is received or paid.

Judgements, estimates and assumptions are required to be made about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated judgements are based on professional judgement derived from historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Revisions to accounting estimates are recognised in the period in which the estimate is revised and also in future periods that are affected by the revision. Judgements and assumptions made by management in the application of AAS's that have significant effects on the financial statements and estimates relate to:

- the fair value of land, buildings, infrastructure, plant and equipment (refer to Notes 1 (f & k) )
- the determination of depreciation for buildings, infrastructure, plant and equipment (refer to Note 1 (I))
- the determination of employee provisions (refer to Note 1 (q)) and landfill site provisions (refer to Note 1 (r))

Unless otherwise stated, all accounting policies are consistent with those applied in the prior year. Where appropriate, comparative figures have been amended to accord with current presentation, and disclosure has been made of any material changes to comparatives.

# (b) Changes in accounting policies

There have been no changes in accounting policies from the previous period.

## (c) Committees of management

All entities controlled by Council that have material revenues, expenses, assets or liabilities, such as committees of management, have been included in this financial report. Any transactions between these entities and Council have been eliminated in full.

## (d) Accounting for investments in associates and joint arrangements

#### Associates

Associates are all entities over which Council has significant influence but not control or joint control. Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

#### (e) Revenue recognition

Income is recognised when the Council obtains control of the contribution or the right to receive the contribution, it is probable that the economic benefits comprising the contribution will flow to the Council and the amount of the contribution can be measured reliably.

#### Rates and Charges

Annual rates and charges are recognised as revenues when Council issues annual rates notices. Supplementary rates are recognised when a valuation and reassessment is completed and a supplementary rates notice issued.

#### Statutory fees and fines

Statutory fees and fines (including parking fees and fines) are recognised as revenue when the service has been provided, the payment is received, or when the penalty has been applied, whichever first occurs.

## Notes to the Financial Report For the Year Ended 30 June 2016

#### Note 1 Significant accounting policies (cont.)

#### (e) Revenue recognition (cont.)

#### User fee:

User fees are recognised as revenue when the service has been provided or the payment is received, whichever

#### Grants

Grant income is recognised when Council obtains control of the contribution. This is normally obtained upon their receipt (or acquittal) or upon earlier notification that a grant has been secured, and are valued at their fair value at the date of transfer.

Where grants or contributions recognised as revenues during the financial year were obtained on condition that they be expended in a particular manner or used over a particular period and those conditions were undischarged at balance date, the unused grant or contribution is disclosed in Note 6. The note also discloses the amount of unused grant or contribution from prior years that was expended on Council's operations during the current year.

#### Contribution:

Monetary and non monetary contributions are recognised as revenue when Council obtains control over the contributed asset.

#### Sale of property, infrastructure, plant and equipment

The profit or loss on sale of an asset is determined when control of the asset has irrevocably passed to the buyer.

#### Interest

Interest is recognised as it is earned.

#### Dividends

Dividend revenue is recognised when the Council's right to receive payment is established.

## Other Income

Other income is measured at the fair value of the consideration received or receivable and is recognised when Council gains control over the right to receive the income.

#### (f) Fair value measurement

Council measures certain assets and liabilities at fair value where required or permitted by Australian Accounting Standards. AASB 13 Fair value measurement, aims to improve consistency and reduce complexity by providing a definition of fair value and a single source of fair value measurement and disclosure requirements for use across Australian Accounting Standards.

AASB 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value under AASB 13 is an exit price regardless of whether that price is directly observable or estimated using another valuation technique.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within a fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, Council has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as above.

In addition, Council determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

#### (g) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits at call, and other highly liquid investments with original maturities of 90 days or less, net of outstanding bank overdrafts.

## Notes to the Financial Report For the Year Ended 30 June 2016

#### Note 1 Significant accounting policies (cont.)

#### (h) Trade and other receivables

Receivables are carried at amortised cost using the effective interest rate method. A provision for doubtful debts is recognised when there is objective evidence that an impairment has occurred.

#### (i) Other financial assets

Other financial assets are valued at fair value, being market value, at balance date. Term deposits are measured at amorfised cost. Any unrealised gains and losses on holdings at balance date are recognised as either a revenue or expense.

#### (i) Inventories

Inventories held for distribution are measured at cost, adjusted when applicable for any loss of service potential. Inventories are measured at the lower of cost and net realisable value.

All other inventories, including land held for sale, are measured at the lower of cost and net realisable value. Where inventories are acquired for no cost or nominal consideration, they are measured at current replacement cost at the date of acquisition.

#### (k) Recognition and measurement of property, plant and equipment, infrastructure, intangibles

#### Acquisition

The purchase method of accounting is used for all acquisitions of assets, being the fair value of assets provided as consideration at the date of acquisition plus any incidental costs attributable to the acquisition. Fair value is the amount for which the asset could be exchanged between knowledgeable willing parties in an arm's length transaction.

Where assets are constructed by Council, cost includes all materials used in construction, direct labour, borrowing costs incurred during construction, and an appropriate share of directly attributable variable and fixed overheads.

In accordance with Council's policy, the threshold limits detailed in Note 1 (I) have applied when recognising assets within an applicable asset class and unless otherwise stated are consistent with the prior year.

## Revaluation

Subsequent to the initial recognition of assets, non-current physical assets, other than plant and equipment, are measured at their fair value, being the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. At balance date, the Council reviewed the carrying value of the individual classes of assets measured at fair value to ensure that each asset materially approximated its fair value. Where the carrying value materially differed from the fair value at balance date, the class of asset was revalued.

Fair value valuations are determined in accordance with a valuation hierarchy. Changes to the valuation hierarchy will only occur if an external change in the restrictions or limitations of use of an asset result in changes to the permissible or practical highest and best use of the asset. Further details regarding the fair value hierarchy are disclosed at Note 22 Property, infrastructure, plant and equipment.

In addition, Council undertakes a formal revaluation of land, buildings, and infrastructure assets on a regular basis ranging from 3 to 5 years. The valuation is performed either by experienced council officers or independent experts.

Where the assets are revalued, the revaluation increments are credited directly to the asset revaluation reserve except to the extent that an increment reverses a prior year decrement for that class of asset that had been recognised as an expense in which case the increment is recognised as revenue up to the amount of the expense. Revaluation decrements are recognised as an expense except where prior increments are included in the asset revaluation reserve for that class of asset in which case the decrement is taken to the reserve to the extent of the remaining increments. Within the same class of assets, revaluation increments and decrements within the year are offset.

#### Land under roads

Council recognises land under roads it controls at fair value.

## Notes to the Financial Report For the Year Ended 30 June 2016

#### Note 1 Significant accounting policies (cont.)

#### (I) Depreciation and amortisation of property, infrastructure, plant and equipment and intangibles

Buildings, land improvements, plant and equipment, infrastructure, and other assets having limited useful lives are systematically depreciated over their useful lives to the Council in a manner which reflects consumption of the service potential embodied in those assets. Estimates of remaining useful lives and residual values are made on a regular basis with major asset classes reassessed annually. Depreciation rates and methods are reviewed annually.

Where assets have separate identifiable components that are subject to regular replacement, these components are assigned distinct useful lives and residual values and a separate depreciation rate is determined for each component.

Road earthworks are not depreciated on the basis that they are assessed as not having a limited useful life. Straight line depreciation is charged based on the residual useful life as determined each year. Depreciation periods used are listed below and are consistent with the prior year unless otherwise stated.

Asset recognition thresholds and depreciation periods	Depreciation Period	Threshold Limit
Property		\$
Buildings and Land Improvements		
land	-	1
land improvements	5 to 60 years	5,000
land under roads	-	-
buildings <sup>1,2</sup>	10 to 100 years	5,000
Heritage Assets		
heritage assets <sup>1</sup>	10 to 100 years	5,000
Plant and Equipment		
plant, machinery and equipment	2 to 10 years	500
furniture, equipment and computers	2 to 13 years	1,500
Art and civic regalia <sup>3</sup>	-	3,000
Infrastructure		
Roads		
road surface and seals	12 to 60 years	-
spray seal	-	500m2
asphalt	-	150m2
concrete	-	55m2
line marking	-	5,000
road pavement	53 to 60 years	290m2
road kerb, channel and minor culverts	60 to 90 years	1
bridges deck	50 to 80 years	1
Footpaths	10 to 60 years	1
Bike paths	10 to 65 years	1
Drainage	50 to 90 years	1
Naturestrip trees	50 years	1
Regulatory signs	7 to 35 years	1
Street furniture	5 to 50 years	1

<sup>1</sup>In 2014/2015 Council had elected to adopt a depreciation period of 40 years as per an independent valuation. In May 2016 Council adopted a Depreciation Policy that prescribed a useful life of 10 to 100 years. This table shows the impact of the change in the depreciation rate.

Asset	40 Years Depreciation	10 to 100 Years Depreciation
Buildings	4,936,928	3,213,729

<sup>&</sup>lt;sup>2</sup>Greater Shepparton City Council's Depreciation Policy 34.POL3 notes a threshold for New buildings as 'all'. The minimum threshold for renewal, upgrade and expansion is \$5,000

# (m) Repairs and maintenance

Routine maintenance, repair costs, and minor renewal costs are expensed as incurred. Where the repair relates to the replacement of a component of an asset and the cost exceeds the capitalisation threshold the cost is capitalised and depreciated. The carrying value of the replaced asset is expensed.

<sup>&</sup>lt;sup>8</sup>Greater Shepparton City Council's Depreciation Policy 34.POL3 notes a depreciation period of 50 years for Mayoral Robes

## Notes to the Financial Report For the Year Ended 30 June 2016

# Note 1 Significant accounting policies (cont.)

#### (n) Impairment of assets

At each reporting date, the Council reviews the carrying value of its assets to determine whether there is any indication that these assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the assets carrying value. Any excess of the assets carrying value over its recoverable amount is expensed to the comprehensive income statement, unless the asset is carried at the revalued amount in which case, the impairment loss is recognised directly against the revaluation surplus in respect of the same class of asset to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that same class of asset.

#### (o) Trust funds and deposits

Amounts received as deposits and retention amounts controlled by Council are recognised as trust funds until they are returned, transferred in accordance with the purpose of the receipt, or forfeited (refer to Note 25).

## (p) Borrowings

Borrowings are initially measured at fair value, being the cost of the interest bearing liabilities, net of transaction costs. The measurement basis subsequent to initial recognition depends on whether the Council has categorised its interest-bearing liabilities as either financial liabilities designated at fair value through the profit and loss, or financial liabilities at amortised cost. Any difference between the initial recognised amount and the redemption value is recognised in net result over the period of the borrowing using the effective interest method. The classification depends on the nature and purpose of the interest bearing liabilities. The Council determines the classification of its interest bearing liabilities at initial recognition.

#### Borrowing costs

Borrowing costs are recognised as an expense in the period in which they are incurred, except where they are capitalised as part of a qualifying asset constructed by Council. Except where specific borrowings are obtained for the purpose of specific asset acquisition, the weighted average interest rate applicable to borrowings at balance date, excluding borrowings associated with superannuation, is used to determine the borrowing costs to be capitalised.

Borrowing costs include interest on bank overdrafts, interest on borrowings, and finance lease charges.

#### (q) Employee costs and benefits

The calculation of employee costs and benefits includes all relevant on-costs and are calculated as follows at reporting date.

#### Wages and salaries and annual leave

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulated sick leave expected to be wholly settled within 12 months of the reporting date are recognised in the provision for employee benefits in respect of employee services up to the reporting date, classified as current liabilities and measured at their nominal values.

Liabilities that are not expected to be wholly settled within 12 months of the reporting date are recognised in the provision for employee benefits as current liabilities, measured at the present value of the amounts expected to be paid when the liabilities are settled using the remuneration rate expected to apply at the time of settlement.

#### Long service leave

Liability for long service leave (LSL) is recognised in the provision for employee benefits.

Current liability - unconditional LSL is disclosed as a current liability even when the council does not expect to settle the liability within 12 months because it will not have the unconditional right to defer settlement of the entitlement should an employee take leave within 12 months.

The components of this current liability are measured at:

- present value component that is not expected to be wholly settled within 12 months.
- nominal value component that is expected to be wholly settled within 12 months.

## Classification of employee costs

Non-current liability - conditional LSL that has been accrued, where an employee is yet to reach a qualifying term of employment, is disclosed as a non - current liability. There is an unconditional right to defer settlement of the entitlement until the employee has completed the requisite years of service.

This non-current LSL liability is measured at present value.

## Notes to the Financial Report For the Year Ended 30 June 2016

#### Note 1 Significant accounting policies (cont.)

#### (r) Landfill rehabilitation provision

Council is obligated to restore the Cosgrove Landfill site to a particular standard. The forecast life of the site is based on current estimates of remaining capacity and the forecast rate of infill. The provision for landfill restoration has been calculated based on the present value of the expected cost of works to be undertaken. The expected cost of works has been estimated based on current understanding of work required to reinstate the site to a suitable standard. Accordingly, the estimation of the provision required is dependent on the accuracy of the forecast firming of the work, work required and related costs.

#### (s) Leases

#### Operating leases

Lease payments for operating leases are required by the accounting standard to be recognised on a straight line basis, rather than expensed in the years in which they are incurred.

#### (t) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

Cash flows are presented in the Statement of Cash Flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

#### (u) Contingent assets and contingent liabilities and commitments

Contingent assets and contingent liabilities are not recognised in the Balance Sheet, but are disclosed by way of a Note and, if quantifiable, are measured at nominal value. Contingent assets and liabilities are presented inclusive of GST receivable or payable respectively.

Commitments are not recognised in the Balance Sheet. Commitments are disclosed at their nominal value by way of Note and presented inclusive of the GST payable.

#### (v) Pending accounting standards

Certain new AAS's have been issued that are not mandatory for the 30 June 2016 reporting period. Council has assessed these pending standards and has identified that no material impact will flow from the application of these standards in future reporting periods.

#### (w) Rounding

Unless otherwise stated, amounts in the financial report have been rounded to the nearest dollar. Figures in the financial statement may not equate due to rounding.

# Notes to the Financial Report For the Year Ended 30 June 2016

#### Note 2 Budget comparison

The budget comparison notes compare Council's financial plan, expressed through its annual budget, with actual performance. The Local Government (Planning and Reporting) Regulations 2014 requires explanation of any material variances. Council has adopted a materiality threshold of of 10 percent and \$100k where further explanation is warranted. Explanations have not been provided for variations below the materiality threshold unless the variance is considered to be material because of its nature.

The budget figures detailed below are those adopted by Council on 23 June 2015. The Budget was based on assumptions that were relevant at the time of adoption of the Budget. Council sets guidelines and parameters for income and expense targets in this budget in order to meet Council's planning and financial performance targets for both the short and long-term. The budget did not reflect any changes to equity resulting from asset revaluations, as their impacts were not considered predictable.

These notes are prepared to meet the requirements of the Local Government Act 1989 and the Local Government (Planning and Reporting) Regulations 2014.

## (a) Income and Expenditure

	Budget 2016 \$'000	Actual 2016 \$'000	Variance 2016 \$'000	Ref
Income

Surplus/(deficit) for the year	9,115	90	(9,026)	

# Notes to the Financial Report For the Year Ended 30 June 2016

# (i) Explanation of material variations

Variance Ref	ltem	Explanation
1	Statutory fees and fines	More than budget by \$682k due to Parking Infringements being budgetted under Other income, but correctly reported under Statutory fees and fines (\$671k).
2	Grants - operating	Less than budget by \$5.068m largely due to the early receipt in 2014/15 of 50% (\$5.74m) of the 2015/16 Federal Financial Assistance Grant funding from the Commonwealth Government.
3	Grants - capital	More than budget by \$3.727m largely due to additional Roads to Recovery Grant funding of \$1.325m, \$750k contribution from VicRoads for Midland Highway Duplication drainage works, \$654k in additional milestone payments for the Greater Shepparton Regional Sports Precinct and \$460k grant funding from the Departmet of Economic Development, Jobs, Transport and Resources for Katandra West Community Centre.
4	Contributions - non monetary	More than budget by \$1.071m largely due to contributions received from developers which are often difficult to predict.
5	Net gain/(loss) on disposal of property, infrastructure, plant and equipment	Less than budget by \$555k due to \$350k write off of replaced assets being recorded as an other expense (refer #8) and a lower recorded value of write offs for sold motor vehicles (\$240k).
6	Other income	Less than budget by \$1.254m due to budget incorrectly including Parking Infringements of \$671k (refer #1).
7	Materials and services	More than budget by $\$3.232m$ due to increased provision for cell capping required against Cosgrove Landfill.
8	Other expenses	More than budget by \$7.283m due to write down of replaced assets, lost assets and works in progress expenditure not relating to Council assets.

# Notes to the Financial Report For the Year Ended 30 June 2016

# (i) Explanation of material variations

Variance Ref	Item	Explanation
1	Land	More than budget by \$1.989m due to land acquisition for Cosgrove 3 landfill originally budgeted in Land Improvements.
2	Land improvements	Less than budget by \$5.951m largely due to the Cosgrove Landfill with \$1.989m land acquisition reclassified to Land, \$772k reclassified to Waste Management and \$2.721m of works rescheduled to future years and therefore transferred to the Waste Restricted Investment.
3	Fixtures, fittings and furniture	More than budget by \$323k largely due to the rebudget of Kids Town Fruit Bin Upgrade works from 2014/15 \$140k and increased kerbside waste bin purchases \$118k.
4	Computers and telecommunications	Less than budget by \$569k due to rebudgeting of the replacement Finance System expenditure into 2016/17 \$400k and leasing of computers instead of purchasing outright \$180k.
5	Footpaths and cycleways	Less than budget by \$129k largely due to budget savings on Shared Path Renewal \$69k and Corio Street Bike Lanes \$38k.
6	Drainage	More than budget by \$412k largely due to Mooroopna West Growth Corridor DCP drainage works \$316k.
7	Recreational, leisure and community facilities	More than budget by \$1.573m largely due to reclassification of Aquamoves Change Room renewals from Buildings to Recreational, Leisure and Community Facilities \$1.04m and the rebudget of Mooroopna Recreation Reserve Power Upgrade works from 2014/15 \$334k.
8	Waste management	More than budget by \$772k due to the reclassification of Cosgrove 3 Landfill works from Land Improvements to Waste Management.
9	Other infrastructure	Less than budget by \$125k largely due to budget savings for Victoria Park Lake lighting works $\$67k$ .

## Notes to the Financial Report For the Year Ended 30 June 2016

ort	For the Year Ended 30 June 2016		
		2016 \$	2015 \$
Note:	3 Rates and charges		
	Council uses Capital Improved Value (CIV) as the basis of valuation of all properties within the municipal district. The CIV of a property is its market value, which takes into account the land and all improvements fixed to the land.		
	The valuation base used to calculate general rates for 2015/16 was $\$8.98$ billion (2014/15 $\$8.92$ billion).		
	General Rates	52,239,432	47,007,926
	Municipal charge	7,334,500	6,629,966
	Waste management charge	8,430,173	7,700,800
	Supplementary rates and rate adjustments	256,265	2,441,019
	Total rates and charges	68,260,370	63,779,711
	The date of the latest general revaluation of land for rating purposes within the municipal district was 1 January 2016, and the valuation will be first applied in the rating year commencing 1 July 2016.		
Note 4	4 Statutory fees and fines

Greater Shepparton City Council	Notes to the Financial Report		
2015/2016 Financial Report	For the Year Ended 30 June 2016		
17-4-4	8 h	2016	2015
Note 1	6 Investments in associates, joint ventures and subsidiaries	\$	\$
	(a) Investments in associates		
	Investments in associates accounted for by the equity method are:		
	- Goulburn Valley Regional Library Corporation	1,493,041	1,513,596
	Goulburn Valley Regional Library Corporation		
	Background		
	The Goulburn Valley Regional Library Corporation is an entity which has been		
	established to serve three northern Victorian councils; the Greater Shepparton		
	City Council, Moira Shire Council and the Strathbogie Shire Council. Each		
	Council has two representatives on the Board of the Corporation.		
	Each of the member Councils contributes financially to the operation of the		
	Corporation based on the ratio of their population base. Contribution payments are		
	considered a 'fee for service' on a commercial basis and are relative to the		
	services the Corporation provides. The amount of financial contribution does not		
	bring with it any additional voting rights or influence on the library activities and therefore no greater power or control.		
	Fair value of Councillo investment in the Coulburn Valley Designal Library		
	Fair value of Council's investment in the Goulburn Valley Regional Library Corporation	1,493,041	1,513,596
	Council's share of accumulated surplus/(deficit)		
	Council's share of accumulated surplus (deficit) at start of year	(366,592)	(497,788)
	Reported surplus(deficit) for year	(20,555)	131,196
	Council's share of accumulated surplus(deficit) at end of year	(387,147)	(366,592)
	Council's share of reserves		
	Council's share of reserves at start of year	1,382,400	1,382,400
	Council's share of reserves at end of year	1,382,400	1,382,400
	Movement in carrying value of specific investment		
	Carrying value of investment at start of year	1,513,596	1,382,400
	Share of surplus(deficit) for year	(20,555)	131,196
	Carrying value of investment at end of year	1,493,041	1,513,596

Greater Shepparton City Co. Notes to the Financial Report 2015/2016 Financial Report For the Year Ended 30 June 2016 2016 2015 Note 17 Cash and cash equivalents ŝ ŝ Cash on hand 8,700 8,900 Cash at bank 7.763.119 13.289.535 Term deposits 5.504,114 5.004.114 13,275,933 18.302.549 Councils cash and cash equivalents are subject to external restrictions that limit amounts available for discretionary use. These include: - Trust funds and deposits (Note 25) 3.093.498 2.748.204 - Funds held on a statutory basis 1,429,228 1,848,779 Total restricted funds 4,522,726 4,596,983 Total unrestricted cash and cash equivalents 8,753,207 13,705,566 Intended allocations Although not externally restricted the following amounts have been allocated for specific future purposes by Council: - Cash held to fund carried forward capital works 3,425,876 2,734,393 - Conditional grants unspent 777,174 2,734,393 Total funds subject to intended allocations 4,203,050 Refer also to Note 19 for details of other financial assets held by Council. Note 18 Trade and other receivables Current Rates debtors 3,277,313 3,478,564 Infringement debtors 425.046 345.237 (101,386) Provision for doubtful debts - infringements (44,778)Other debtors 1,711,478 1.568,542 Provision for doubtful debts - other debtors (30,000)(30,000) Net GST receivable 626,510 Total current trade and other receivables 5,965,568 5,260,957 Total trade and other receivables 5,965,568 5,260,957 (a) Ageing of Receivables At balance date other debtors representing financial assets were past due but not impaired. These amounts relate to a number of independent customers for whom there is no recent history of default The ageing of the Council's trade & other receivables (excluding statutory receivables) was: Current (not yet due) 1,457,932 1,437,507 Past due by up to 30 days 169,752 54,833 Past due between 31 and 180 days 83,794 76,202 Past due between 181 and 365 days Past due by more than 1 year Total trade & other receivables 1.711.478 1.568.542 (b) Movement in provisions for doubtful debts Balance at the beginning of the year (131,386) (125.689)New Provisions recognised during the year (5.082)(22.405) 61,690 16.708 Amounts already provided for and written off as uncollectible Amounts provided for but recovered during the year (74,778) Balance at end of year (131,386) (c) Ageing of individually impaired Receivables At balance date, other debtors representing financial assets with a nominal value of \$29,826 (2015: \$33,995) were impaired. The amount of the provision raised against these debtors was \$30,000 (2015: \$30,000). They individually have been impaired as a result of their doubtful collection. Many of the long outstanding past due amounts have been lodged with Council's debt collectors or are on payment arrangements.

Page 21

The ageing of receivables that have been individually determined as impaired at reporting date was:

Past due between 31 and 180 days

## Notes to the Financial Report For the Year Ended 30 June 2016

## Note 22 Property, infrastructure, plant and equipment (cont.)

#### Valuation of land and buildings

Valuation of land and buildings were undertaken by a qualified independent valuer LG Valuation Services. The valuation of land and buildings is at fair value, being market value based on highest and best use permitted by relevant land planning provisions. Where land use is restricted through existing planning provisions the valuation is reduced to reflect this limitation. This adjustment is an unobservable input in the valuation. The adjustment has no impact on the comprehensive income statement.

Specialised land is valued at fair value using site values adjusted for englobo (undeveloped and/or unserviced) characteristics, access rights and private interests of other parties and entitlements of infrastructure assets and services. This adjustment is an unobservable input in the valuation. The adjustment has no impact on the comprehensive income statement.

Any significant movements in the unobservable inputs for land and land under roads will have a significant impact on the fair value of these assets.

Details of the Council's land and buildings and information about the fair value hierarchy as at 30 June 2016 are as follows:

	Level 1	Level 2	Level 3
Land	-	195,675	58,000,458
Specialised land	-	646,345	178,428,164
Land improvements		5,685,146	685,857

#### Valuation of infrastructure

Valuation of infrastructure assets (excluding Major Culverts) has been determined in accordance with an internal valuation undertaken by the Team Leader Strategic Assets.

Valuation of infrastructure assets (Major Culverts) has been determined in accordance with an internal valuation undertaken by Sterling Group Consultants Pty Ltd.

Details of the Council's infrastructure and information about the fair value hierarchy as at 30 June 2016 are as follows:

	Level 1	Level 2	Level 3
Roads	-	9,581,423	385,982,538
Bridges	-		13,907,261

## Notes to the Financial Report For the Year Ended 30 June 2016

## Note 22 Property, infrastructure, plant and equipment (cont.)

Description of significant unobservable inputs into level 3 valuations

Specialised land and land under roads is valued using a market based direct comparison technique. Significant unobservable inputs include the extent and impact of restriction of use and the market cost of land per square metre. The extent and impact of restrictions on use varies and results in a reduction to surrounding land values between 5% and 95%. The market value of land varies significantly depending on the location of the land and the current market conditions. Currently land values range between \$0.05 and \$834.54 per square metre.

Specialised buildings are valued using a depreciated replacement cost technique. Significant unobservable inputs include the current replacement cost and remaining useful lives of buildings. Current replacement costs is calculated on a square metre basis and ranges from \$150 to \$15,000 per square metre. The remaining useful lives of buildings are determined on the basis of the current condition of buildings and vary from 20 years to 100 years. Replacement cost is sensitive to changes in market conditions, with any increase or decrease in cost flowing through to the valuation. Useful lives of buildings are sensitive to changes in expectations or requirements that could either shorten or extend the useful lives of buildings.

Infrastructure assets are valued based on the depreciated replacement cost. Significant unobservable inputs include the current replacement cost and remaining useful lives of infrastructure. The remaining useful lives of infrastructure assets are determined on the basis of the current condition of the asset and vary from 7 years to 100 years. Replacement cost is sensitive to changes in market conditions, with any increase or decrease in cost flowing through to the valuation. Useful lives of infrastructure are sensitive to changes in use, expectations or requirements that could either shorten or extend the useful lives of infrastructure assets.

	Total trust funds and deposits	3,093,498	2,748,204

Purpose and nature of items

Refundable deposits - Deposits are taken by council as a form of surety in a number of circumstances, including in relation to building works, tender deposits, contract deposits and the use of civic facilities.

Fire Service Levy - Council is the collection agent for fire services levy on behalf of the State Government. Council remits amounts received on a quarterly basis. Amounts disclosed here will be remitted to the state government in line with that process.

Retention Amounts - Council has a contractual right to retain certain amounts until a contractor has met certain requirements or a related warrant or defect period has elapsed. Subject to the satisfactory completion of the contractual obligations, or the elapsing of time, these amounts will be paid to the relevant contractor in line with Council's contractual obligations.

#### Notes to the Financial Report For the Year Ended 30 June 2016

		2016	2015
		\$	\$
e 32 (	Operating leases		
(	(a) Operating lease commitments		
f	At the reporting date, the Council had the following obligations under non- cancellable operating leases for the lease of equipment and land and buildings for use within Council's activities (these obligations are not recognised as labilities):		
1	Not later than one year	427,812	389,178
l	Later than one year and not later than five years	933,694	419,341
I	Later than five years		-
		1,361,507	808,519
(	(b) Operating lease receivables		
i i	The Council has entered into commercial property leases on its investment property, consisting of surplus freehold office complexes. These properties held under operating leases have remaining non-cancellable lease terms of between 1 and 10 years. All leases include a CPI based revision of the rental charge annually.		
	Future minimum rentals receivable under non-cancellable operating leases are as follows:		
1	Not later than one year	215,770	230,153
l	Later than one year and not later than five years	236,684	457,828
l	Later than five years		36,885
		452,455	724,866

#### Note 33 Superannuation

Council makes all of its employer superannuation contributions in respect of its employees to the Local Authorities Superannuation Fund (the Fund). This Fund has two categories of membership, accumulation and defined benefit, each of which is funded differently. Obligations for contributions to the Fund are recognised as an expense in the Comprehensive Income Statement when they are made or due.

#### Accumulation

The Fund's accumulation categories, Vision MySuper/Vision Super Saver, receive both employer and employee contributions on a progressive basis. Employer contributions are normally based on a fixed percentage of employee earnings (for the year ended 30 June 2016, this was 9.5% as required under Superannuation Guarantee legislation).

#### Defined Benefi

Council does not use defined benefit accounting for its defined benefit obligations under the Fund's Defined Benefit category. This is because the Fund's Defined Benefit category is a pooled multi-employer sponsored plan.

There is no proportional split of the defined benefit liabilities, assets or costs between the participating employers as the defined benefit obligation is a floating obligation between the participating employers and the only time that the aggregate obligation is allocated to specific employers is when a call is made. As a result, the level of participation of Council in the Fund cannot be measured as a percentage compared with other participating employers. Therefore, the Fund Actuary is unable to allocate benefit liabilities, assets and costs between employers for the purposes of AASB 119.

# Funding arrangements

Council makes employer contributions to the Defined Benefit category of the Fund at rates determined by the Trustee on the advice of the Fund Actuary.

As at 30 June 2015, an interim acturial investigation was held as the Fund provides lifetime pensions in the Defined Benefit category. The vested benefit index (VBI) of the Defined Benefit category of which Council is a contributing employer was 105.8%. To determine the VBI, the fund Actuary used the following long-term assumptions:

Net investment returns 7.0% pa Salary information 4.25% pa Price inflation (CPI) 2.5% pa.

#### Notes to the Financial Report For the Year Ended 30 June 2016

#### Note 33 Superannuation (cont.)

Vision Super has advised that the estimated VBI at June 2016 quarter end was 102.0% (subject to the finalisation of Fund Actuary report). The VBI is to be used as the primary funding indicator. Because the VBI was above 100%, the 2015 interim actuarial investigation determined the Defined Benefit category was in a satisfactory financial position and that no change was necessary to the Defined Benefit category's funding arrangements from prior years.

#### Employer contributions

#### Regular contributions

On the basis of the results of the 2015 interim actuarial investigation conducted by the Fund Actuary, Council makes employer contributions to the Fund's Defined Benefit category at rates determined by the Fund's Trustee. For the year ended 30 June 2016, this rate was 9.5% of members' salaries (9.5% in 2014/2015). This rate will increase in line with any increase to the contribution rate. In addition, Council reimburses the Fund to cover the excess of the benefits paid as a consequence of retrenchment above the funded resignation or retirement benefit.

#### Funding calls

If the Defined Benefit category is in an unsatisfactory financial position at an actuarial investigation or the Defined Benefit category's VBI is below its shortfall limit at any time other than the date of the actuarial investigation, the Defined Benefit category has a shortfall for the purposes of SPS 160 and the Fund is required to put a plan in place so that the shortfall is fully funded within three years of the shortfall occurring. The Fund monitors its VBI on a quarterly basis and the Fund has set its shortfall limit at 97%.

In the event that the Fund Actuary determines that there is a shortfall based on the above requirement, the Fund's participating employers (including Council) are required to make an employer contribution to cover the shortfall. Using the agreed methodology, the shortfall amount is apportioned between the participating employers based on the pre-1 July 1993 and post-30 June 1993 service liabilities of the Fund's Defined Benefit category, together with the employer's payroll at 30 June 1993 and at the date the shortfall has been calculated.

Due to the nature of the contractual obligations between the participating employers and the Fund, and that the Fund includes lifetime pensioners and their reversionary beneficiaries, it is unlikely that the Fund will be wound up. If there is a surplus in the Fund, the surplus cannot be returned to the participating employers. In the event that a participating employer is wound-up, the defined benefit obligations of that employer will be transferred to that employer's successor.

# 2015 Interim actuarial investigation surplus amounts

The Fund's interim actuarial investigation as at 30 June 2015 identified the following in the defined benefit category of which Council is a contributing employer:

A VBI surplus of \$130.8 million; and

A total service liability surplus of \$239 million.

The VBI surplus means that the market value of the fund's assets supporting the defined benefit obligations exceed the vested benefits that the defined benefit members would have been entitled to if they had all exited on 30 June 2015. The total service liability surplus means that the current value of the assets in the Fund's Defined Benefit category plus expected future contributions exceeds the value of expected future benefits and expenses. Council was notified of the 30 June 2015 VBI during August 2015.

### Superannuation contributions

Contributions by Council (excluding any unfunded liability payments) to superannuation plans for the financial year ended 30 June 2016 are detailed below:

Scheme	Type of scheme	Rate	2016 \$'000	2015 \$'000
Vision Super	Defined benefits	9.50%	172	192
Vision Super	Accumulation	9.50%	3,642	3,387
Other Funds than Vision Super	Accumulation	9.50%	9	9

There were no contributions outstanding and no loans issued from or to the above schemes as at 30 June 2016.

The expected contributions to be paid to the Defined Benefit category of Vision Super for the year ending 30 June 2017 is \$180k.

#### Notes to the Financial Report For the Year Ended 30 June 2016

#### Note 34 Contingent liabilities and contingent assets

#### **Contingent Liabilities**

#### (i) Contingent liabilities arising from public liabilities

As a local authority with ownership of numerous parks, reserves, roads and other land holdings, the council carries a \$400 million Public and Products Liability Insurance that has an excess payment of \$20,000 per claim on this policy. Any exposure to the Council from insurable incidents allegedly arising out of negligent management of its assets has a maximum liability of the excess payment on any single claim. MAV insurance—Liability Mutual Insurance (LMI) is the Council's primary insurer and under the terms and conditions of the 2015/2016 policy the Council has made the insurer aware of any pending or existing claims. Financial outcomes pertaining to claims are unpredictable and are an estimate only. Payments for Public Liability claims are limited to the excess amount or part thereof.

#### (ii) Contingent liabilities arising from professional indemnity

As a local authority with statutory regulatory responsibilities, including the issuing of permit approvals, the Council can be exposed to claims and demands for damages allegedly arising due to advice given by Council Officers. The Council carries \$300 million Professional Indemnity Insurance that has an excess payment of \$20,000 per claim on this policy. The maximum liability for the Council in any single insurable claim is the extent of its excess payment. MAV Insurance — Liability Mutual Insurance (LMI) is Council's primary insurer and under the terms and conditions of the 2015/2016 policy the Council has made the insurer aware of any pending or existing claims.

#### (iii) Contingent liabilities arising from Cosgrove Landfill Financial Assurance

Council has a responsibility under the Environment and Protection Act 1970, for rehabilitation, site aftercare and remedial action at its landfill site at Cosgrove. While rehabilitation and site after care is funded through the annual budget, the EPA requires a financial assurance to meet the potential costs should Council neglect their responsibility for closure. As it is not possible to accurately calculate the cost of such a contingent event, the EPA has derived a formula to calculate the required landfill financial operational assurance. Using this model, Council has recognised a contingent liability of \$487k at 30 June 2016 (\$493k at 2014/15). The Council also has a \$30k bank guarantee held by the Dept. Primary Industry for an extractive industry work authority for clay extraction (WA1425) taken out in 2010.

(iv) Contingent liabilities arising from defined benefits superannuation scheme (refer Vision Super website for more details)

Council has obligations under a defined benefit superannuation scheme that may result in the need to make additional contributions to the scheme, matters relating to this potential obligation are outlined in Note 33. As a result of the volatility in financial markets the likelihood of making such contributions in future periods exists. At this point in time it is not known if additional contributions will be required, their timing or potential amount.

#### Contingent assets

As at the reporting date there were a number of subdivisions in progress throughout the municipality and on completion the Council will receive ownership of the Infrastructure associated with those subdivisions. Valuations are determined at the time of handover.

#### Notes to the Financial Report For the Year Ended 30 June 2016

#### Note 35 Financial instruments

#### (a) Objectives and policies

The Council's principal financial instruments comprise cash assets, term deposits, receivables (excluding statutory receivables), payables (excluding statutory payables) and bank borrowings. Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument is disclosed in Note 1 of the financial statements. Risk management is carried out by senior management under policies approved by the Council. These policies include identification and analysis of the risk exposure to Council and appropriate procedures, controls and risk minimisation.

#### (b) Market risk

Market risk is the risk that the fair value or future cash flows of council financial instruments will fluctuate because of changes in market prices.

The Council's exposure to market risk is primarily through interest rate risk with only insignificant exposure to other price risks and no exposure to foreign currency risk.

#### Interest rate risi

Interest rate risk refers to the risk that the value of a financial instrument or cash flows associated with the instrument will fluctuate due to changes in market interest rates. Council's interest rate liability risk arises primarily from long term loans and borrowings at fixed rates which exposes council to fair value interest rate risk. Council does not hold any interest bearing financial instruments that are measured at fair value, and therefore has no exposure to fair value interest rate risk. Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Council has minimal exposure to cash flow interest rate risk through its cash and deposits that are at floating rates.

Investment of surplus funds is made with approved financial institutions under the Local Government Act 1989. Council manages interest rate risk by adopting an investment policy that ensures:

- diversification of investment product;
- monitoring of return on investment; and
- benchmarking of returns and comparison with budget.

There has been no significant change in the Council's exposure, or its objectives, policies and processes for managing interest rate risk or the methods used to measure this risk from the previous reporting period.

Interest rate movements have not been sufficiently significant during the year to have an impact on the Council's year end result.

# (c) Credit risk

Credit risk is the risk that a contracting entity will not complete its obligations under a financial instrument and cause Council to make a financial loss. Council have exposure to credit risk on some financial assets included in the balance sheet. To help manage this risk:

- council have a policy for establishing credit limits for the entities Council deal with;
- council may require collateral where appropriate; and
- council only invest surplus funds with financial institutions which have a recognised credit rating specified in council's investment policy.
   Receivables consist of a large number of customers, spread across the ratepayer, business and government sectors. Credit risk associated with the Council's financial assets is minimal because the main debtor is secured by a charge over the rateable property.

There are no material financial assets which are individually determined to be impaired.

Council may also be subject to credit risk for transactions which are not included in the balance sheet, such as when Council provide a guarantee for another party. Details of our contingent liabilities are disclosed in Note 34.

The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the balance sheet and notes to the financial statements. Council does not hold any collateral.

#### (d) Liquidity risl

Liquidity risk includes the risk that, as a result of Council's operational liquidity requirements it will not have sufficient funds to settle a transaction when required or will be forced to sell a financial asset at below value or may be unable to settle or recover a financial asset.

To help reduce these risks Council:

- have a liquidity policy which targets a minimum and average level of cash and cash equivalents to be maintained;
- have readily accessible standby facilities and other funding arrangements in place;
- have a liquidity portfolio structure that requires surplus funds to be invested within various bands of liquid instruments;
- monitor budget to actual performance on a regular basis; and
- set limits on borrowings relating to the percentage of loans to rate revenue and percentage of loan principal repayments to rate revenue

The Council's maximum exposure to liquidity risk is the carrying amounts of financial liabilities as disclosed on the face of the balance sheet and the amounts related to financial guarantees disclosed in Note 34, and is deemed insignificant based on prior periods' data and current assessment of risk.

There has been no significant change in Council's exposure, or its objectives, policies and processes for managing liquidity risk or the methods used to measure this risk from the previous reporting period.

With the exception of borrowings, all financial liabilities are expected to be settled within normal terms of trade. Details of the maturity profile for borrowings are disclosed at Note 27.

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

### Notes to the Financial Report For the Year Ended 30 June 2016

# Note 35 Financial instruments (cont.)

#### (e) Fair value

Fair value hierarchy

Council's financial assets and liabilities are not valued in accordance with the fair value hierarchy, Council's financial assets and liabilities are measured at amorfised cost.

# (f) Sensitivity disclosure analysis

Taking into account past performance, future expectations, economic forecasts, and management's knowledge and experience of the financial markets, Council believes the following movements are 'reasonably possible' over the next 12 months:

- A parallel shift of +1.0% and -1.0% in market interest rates (AUD) from year-end rates of 2.79%.

These movements will not have a material impact on the valuation of Council's financial assets and liabilities, nor will they have a material impact on the results of Council's operations.

### Notes to the Financial Report For the Year Ended 30 June 2016

# Note 36 Related party transactions

#### Responsible Persons

Names of persons holding the position of a Responsible Person at the Council at any time

during the year are: Councillors

Cr Dinny Adem [Mayor from November 2015]

Cr Dennis Patterson [Mayor until November 2015]

Cr Kevin Ryan Cr Jenny Houlihan Cr Fern Summer Cr Les Oroszvary

Cr Michael Polan [Resigned as Councillor 30 June 2015] Cr Chris Hazelman [Elected to Council 6 July 2015]

Chief Executive Officer Peter Harriott (Appointed from 4 January 2016)

Chris Teitzel (Acting CEO 4 July 2015 to 3 January 2016)

Gavin Cator (Resigned at 3 July 2015)

#### Remuneration of Responsible Persons

The numbers of Responsible Persons whose total remuneration from Council and any related entities, excluding retirement benefits, fall within the following bands:

		2016 No.		2015 No.
\$1 - \$9,999		1		-
\$20,000 - \$29,999		5		5
\$40,000 - \$49,999		1		1
\$50,000 - \$59,999		2		1
\$110,000 - \$119,999		1		-
\$120,000 - \$129,999		1		
\$280,000 - \$289,999		-		1
		11		8
Total Remuneration for the reporting year for Responsible Persons included above amounted to:	¢	527 COO	¢	514 727

537,699 514,727

### Senior Officers Remuneration

A Senior Officer other than a Responsible Person, is an officer of Council who: a) has management responsibilities and reports directly to the Chief Executive; or b) whose total annual remuneration exceeds \$139,000

The number of Senior Officers other than the Responsible Persons, are shown below in their relevant income bands:

	2016	2015
Income Range:	No.	No.
Less than \$119,999	2	2
\$120,000 - \$129,999	1	1
\$130,000 - \$139,999	1	2
\$140,000 - \$149,999	2	-
\$170,000 - \$179,999	1	1
\$180,000 - \$189,999	1	2
\$190,000 - \$199,999	1	-
	9	8
Total Remuneration for the reporting year for Senior Officers included above, amounted to	\$ 1,306,201	\$ 1,152,639

#### (iv) Responsible persons retirement benefits

The aggregate amount paid during the reporting period by Council in connection with the retirement of responsible persons was \$55k. (2014/15, \$390k).

# Notes to the Financial Report For the Year Ended 30 June 2016

# Note 36 Related party transactions (cont.)

# (v) Loans to responsible persons

At balance date Council had not made, guaranteed or secured any loans to a responsible person of the council, or a related party of a responsible person (2014/15, Nil).

# (vi) Transactions with responsible persons

There were no transactions with responsible persons or related parties of responsible persons during the reporting period (2014/15, Nil).

# Note 37 Events occurring after balance date

No matters have occurred after balance date that require disclosure in the financial report.

# Certification of the Financial Statements

In my opinion the accompanying financial statements have been prepared in accordance with the Local Government Act 1989, the Local Government (Planning and Reporting) Regulations 2014, Australian Accounting Standards and other mandatory professional reporting requirements.

Mr. Matthew Jarvis, Manager Finance and Rates Principal Accounting Officer

Date: 14-September-2016

Shepparton

In our opinion the accompanying financial statements present fairly the financial transactions of the City of Greater Shepparton for the year ended 30 June 2016 and the financial position of the Council as at that date.

As at the date of signing, we are not aware of any circumstances which would render any particulars in the financial statements to be misleading or inaccurate.

We have been authorised by the Council and by the Local Government (Planning and Reporting) Regulations 2014 to certify the financial statements in their final form.

# GREATER SHEPPARTON CITY COUNCIL

# **Performance Statement**

For the year ended 30 June 2016

The final performance statement certified by Council will be after any changes recommended by the Audit and Risk Management Committee or the auditor, and agreed to by the auditor, have been made.

# **Description of municipality**

Greater Shepparton is a vibrant, diverse community located approximately two hours north of Melbourne in the heart of the Goulburn Valley, the food bowl of Australia.

As a growing regional centre with a vibrant cultural mix of people, the community comprises approximately 62,000 residents living within 60 localities. However Shepparton services a much larger population of approximately 250,000 people as the main service centre for northern Victoria.

Greater Shepparton enjoys a young demographic with growing families, with 2011 census data showing the proportion of couples with children nearly three per cent above the regional Victorian average, at 29.7 per cent.

Our community is culturally rich with a large proportion of the population born overseas (13 per cent), with many residents immigrating from India, Afghanistan, Sudan, Italy, Iraq, Turkey, New Zealand and the Philippines. Italian, Arabic, Persian/Dari, Turkish, Albanian, Punjabi, Greek, Macedonian, Mandarin and Filipino/Tagalog are the most commonly spoken languages other than English.

Greater Shepparton is also the home to regional Victoria's largest Aboriginal community, making up approximately 10 per cent of the population.

Two hours north of Melbourne, Greater Shepparton's central location is a major advantage and has seen our urban centre emerge as the retail, industry and services hub for central Victoria. Located at the intersection of the Midland and Goulburn Valley Highways, Greater Shepparton provides easy access to Adelaide, Sydney, Brisbane and Melbourne.

The City of Greater Shepparton acts as a major industrial, employment and service centre for a wide catchment, including many rural settlements within and beyond its municipal boundaries, with its gross regional product totalling \$2.86 billion per annum.

Greater Shepparton forms part of the 'Food Bowl of Australia', which accounts for 25 per cent of the total value of Victoria's agricultural production. We are a national centre for dairy and horticulture, exporting reliable premium quality fresh and value-added produce via innovative practices and a world class irrigation system. Shepparton is also often referred to as the transport hub of regional Victoria due to its extensive road transport industry.

Major industries for the region include manufacturing, retail trade, health care and social assistance, agriculture and construction. Greater Shepparton is home to several multinational and iconic companies such as Campbell's Soups, SPC, Tatura Milk Industries (Bega), Unilever, Visy, Pental Soaps and Pactum Dairy (Australian Consolidated Milk). Several multinational companies also reside just outside of the Greater Shepparton municipal boundary, such as Nestle, Murray Goulburn and Bega.

These companies utilise Shepparton as their major hub and home to their transport and logistics operations.

# **Sustainable Capacity Indicators**

For the year ended 30 June 2016

Indicator  measure	2015	2016	Material Variations
Own-source revenue Own-source revenue per head of municipal population [Own-source revenue / Municipal population]	\$1,385	\$1,431	No material variations
Recurrent grants Recurrent grants per head of municipal population [Recurrent grants / Municipal population]	\$429	\$314	2016 result is impacted by timings. In 2014/15 Council received in advance 50% (\$5.74m) of its 2015/16 Federal Financial Assistance Grant funding allocation.
Population Expenses per head of municipal population [Total expenses / Municipal population]	\$2,007	\$1,964	No material variations
Infrastructure per head of municipal population [Value of infrastructure / Municipal population]	\$9,172	\$12,268	As per the definitions "infrastructure" means non- current property, plant and equipment excluding land.  During 2015/16 Council re-categorised a number of land and building assets into the Recreational, Leisure and Community Facilities asset category.  This has reduced the reported value of land assets and increased the infrastructure asset values (compared to 2014/15). Therefore the result of this indicator has seen an increase between years.  Population has remained steady and has not influenced the reported result.
Population density per length of road [Municipal population / Kilometres of local roads]	28	28	No material variations
<b>Disadvantage</b> Relative socio-economic disadvantage [Index of Relative Socio-economic Disadvantage by decile]	2	2	No material variations

# Definitions

"infrastructure" means non-current property, plant and equipment excluding land

"local road" means a sealed or unsealed road for which the council is the responsible road authority under the *Road Management Act 2004* 

"own-source revenue" means adjusted underlying revenue other than revenue that is not under the control of council (including government grants)

"population" means Estimated Resident Population (ERP) sourced from the Australian Bureau of Statistics, Regional Population Growth, Australia (3218.0)

"relative socio-economic disadvantage", in relation to a municipality, means the relative socio-economic disadvantage, expressed as a decile for the relevant financial year, of the area in which the municipality is located according to the Index of Relative Socio-Economic Disadvantage (Catalogue Number 2033.0.55.001) of SEIFA

"SEIFA" means the Socio-Economic Indexes for Areas published from time to time by the Australian Bureau of Statistics on its Internet website

# **Service Performance Indicators**

For the year ended 30 June 2016

		ults	
Service   indicator   measure	2015	2016	Material Variations
Governance Satisfaction Satisfaction with council decisions [Community satisfaction rating out of 100 with how council has performed in making decisions in the interest of the community]	56	46	The Local Government Victoria Community Satisfaction Survey conducted approximately 400 interviews of residents within the Greater Shepparton municipality. While there have been minimal changes to council processes, programs and services over this time, it is a possibility that the following activities may have influenced the result:  - Councillor code of conduct investigations and perceived associated legal costs - Perceived disunity between Councillors and former CEO  - Decision to pursue a new Shepparton Art Museum which is not supported by some sections of the community and despite clear and consistent communication some misunderstanding prevails - Implementation of an imposed green waste service - Reduced financial contribution to HACC services - Greater media attention given to business and community groups and their success - Negative perceptions of Greater Shepparton with the reporting of high obesity levels, unemployment, prevalent drug and alcohol abuse, and family violence.
Statutory Planning Decision making Council planning decisions upheld at VCAT [Number of VCAT decisions that did not set aside council's decision in relation to a planning application / Number of VCAT decisions in relation to planning applications] x100	80%	100%	Fewer applications decided by VCAT in 2015/16 compared to 2014/15. All applications were found in Council's favour.
Roads Satisfaction Satisfaction with sealed local roads [Community satisfaction rating out of 100 with how council has performed on the condition of sealed local roads]	49	48	No material variations
Libraries Participation Active library members [Number of active library members / Municipal population] x100	14%	13%	No material variations
Waste Collection Waste diversion Kerbside collection waste diverted from landfill [Weight of recyclables and green organics collected from kerbside bins / Weight of garbage, recyclables and green organics collected from kerbside bins] x100	28%	37%	No material variations
Aquatic facilities Utilisation Utilisation of aquatic facilities [Number of visits to aquatic facilities / Municipal population]	10	10	No material variations

	Res	ults	
Service   indicator   measure	2015	2016	Material Variations
Animal management Health and safety Animal management prosecutions [Number of successful animal management prosecutions]	1	1	No material variations
Food safety Health and safety Critical and major non-compliance notifications [Number of critical non-compliance notifications and major non- compliance notifications about a food premises followed up / Number of critical non-compliance notifications and major non-compliance notifications about food premises] x100	0%	100%	In 2014/15 Greater Shepparton City Council had resolved all issues prior to critical/major non-compliance outcomes. This means that Council did not have ANY critical or major non-compliance notifications for 2014/15. In 2015/16 one critical/major non-compliance notification was recorded and followed up.
Home and community care Participation Participation in HACC service [Number of people that received a HACC service / Municipal target population for HACC services] x100	15%	17%	No material variations
Participation Participation in HACC service by CALD people [Number of CALD people who receive a HACC service / Municipal target population in relation to CALD people for HACC services] x100	11%	10%	No material variations
Maternal and child health Participation Participation in the MCH service [Number of children who attend the MCH service at least once (in the year) / Number of children enrolled in the MCH service] x100	78%	77%	No material variations
Participation Participation in the MCH service by Aboriginal children [Number of Aboriginal children who attend the MCH service at least once (in the year) / Number of Aboriginal children enrolled in the MCH service] x100	66%	64%	No material variations

# Definitions

<sup>&</sup>quot;Aboriginal child" means a child who is an Aboriginal person

<sup>&</sup>quot;Aboriginal person" has the same meaning as in the Aboriginal Heritage Act 2006

<sup>&</sup>quot;active library member" means a member of a library who has borrowed a book from the library

<sup>&</sup>quot;annual report" means an annual report prepared by a council under sections 131, 132 and 133 of the Act

<sup>&</sup>quot;CALD" means culturally and linguistically diverse and refers to persons born outside Australia in a country whose national language is not English

<sup>&</sup>quot;class 1 food premises" means food premises, within the meaning of the *Food Act 1984*, that have been declared as class 1 food premises under section 19C of that Act

<sup>&</sup>quot;class 2 food premises" means food premises, within the meaning of the *Food Act 1984*, that have been declared as class 2 food premises under section 19C of that Act

"Community Care Common Standards "means the Community Care Common Standards for the delivery of HACC services, published from time to time by the Commonwealth

"critical non-compliance outcome notification" means a notification received by council under section 19N(3) or (4) of the *Food Act 1984*, or advice given to council by an authorized officer under that Act, of a deficiency that poses an immediate serious threat to public health

"food premises" has the same meaning as in the Food Act 1984

"HACC program" means the Home and Community Care program established under the Agreement entered into for the purpose of the Home and Community Care Act 1985 of the Commonwealth

"HACC service" means home help, personal care or community respite provided under the HACC program

"local road" means a sealed or unsealed road for which the council is the responsible road authority under the *Road Management Act 2004* 

"major non-compliance outcome notification" means a notification received by a council under section 19N(3) or (4) of the *Food Act 1984*, or advice given to council by an authorized officer under that Act, of a deficiency that does not pose an immediate serious threat to public health but may do so if no remedial action is taken

"MCH" means the Maternal and Child Health Service provided by a council to support the health and development of children within the municipality from birth until school age

"population" means Estimated Resident Population (ERP) sourced from the Australian Bureau of Statistics, Regional Population Growth, Australia (3218.0)

"target population" has the same meaning as in the Agreement entered into for the purposes of the Home and Community Care Act 1985 of the Commonwealth

Revenue level Average residential rate per residential property assessment [Residential rate revenue / Number of residential property assessments]	\$1,696	\$1,803	\$1,597	\$1,605	\$1,613	\$1,622	The increase from 2015 to 2016 is due to the 4.95% rate increase in 2016 plus the introduction of the green organics kerbside collection service. Future years should read as \$1,857 in 2017, \$1,888 in 2018, \$1,920 in 2019 and \$1,952 in 2010. Waste service charges include a contribution towards future capital construction costs of the Cosgrove 3 landfill.		
Workforce turnover Resignations and terminations compared to average staff [Number of permanent staff resignations and terminations / Average number of permanent staff for the financial year] x100	7%	13%	9%	9%	9%	9%	During 2015/16 Council had an increase in retirements and resignations due to our ageing workforce. Resignations/terminations for future years are difficult to predict and are based on historical trends.		

#### Definitions

"adjusted underlying revenue" means total income other than-

- (a) non-recurrent grants used to fund capital expenditure; and
- (b) non-monetary asset contributions; and
- (c) contributions to fund capital expenditure from sources other than those referred to in paragraphs (a) and (b)

"adjusted underlying surplus (or deficit)" means adjusted underlying revenue less total expenditure

"asset renewal expenditure" means expenditure on an existing asset or on replacing an existing asset that returns the service capability of the asset to its original capability

"current assets" has the same meaning as in the AAS

"current liabilities" has the same meaning as in the AAS

"non-current assets" means all assets other than current assets

"non-current liabilities" means all liabilities other than current liabilities

"non-recurrent grant" means a grant obtained on the condition that it be expended in a specified manner and is not expected to be received again during the period covered by a council's Strategic Resource Plan

"own-source revenue" means adjusted underlying revenue other than revenue that is not under the control of council (including government grants

"population "means the resident population estimated by council

"rate revenue" means revenue from general rates, municipal charges, service rates and service charges

"recurrent grant "means a grant other than a non-recurrent grant

"residential rates" means revenue from general rates, municipal charges, service rates and service charges levied on residential properties

"restricted cash" means cash and cash equivalents, within the meaning of the AAS, that are not available for use other than for a purpose for which it is restricted, and includes cash to be used to fund capital works expenditure from the previous financial year

"unrestricted cash" means all cash and cash equivalents other than restricted cash.

# Other Information

For the year ended 30 June 2016

#### 1. Basis of preparation

Council is required to prepare and include a performance statement within its annual report. The performance statement includes the results of the prescribed sustainable capacity, service performance and financial performance indicators and measures together with a description of the municipal district and an explanation of material variations in the results. This statement has been prepared to meet the requirements of the *Local Government Act 1989* and *Local Government (Planning and Reporting) Regulations 2014*.

Where applicable the results in the performance statement have been prepared on accounting bases consistent with those reported in the Financial Statements. The other results are based on information drawn from council information systems or from third parties (e.g. Australian Bureau of Statistics).

The performance statement presents the actual results for the current year for the prescribed financial performance indicators and measures as well as the results forecast by the council's strategic resource plan.

The *Local Government (Planning and Reporting) Regulations 2014* requires explanation of any material variations in the results contained in the performance statement. Council has adopted the materiality thresholds as per Appendix B – Materiality Guidelines of the *Local Government Better Practice Guide 2014-15 Performance Statement*. Explanations have not been provided for variations below the materiality thresholds unless the variance is considered to be material of its nature.

The forecast figures included in the performance statement are those adopted by council in its strategic resource plan on 21 June 2016. The strategic resource plan includes estimates based on key assumptions about the future that were relevant at the time of adoption and aimed at achieving sustainability over the long term. Detailed information on the actual financial results is contained in the General Purpose Financial Statements. The strategic resource plan can be obtained by visiting www.greatershepparton.com.au

# Certification of the performance statement

In my opinion, the accompanying performance statement has been prepared in accordance with the *Local Government Act 1989* and the *Local Government (Planning and Reporting) Regulations 2014.* 

Matthew Jarvis CPA

Principal Accounting Officer

Dated:

In our opinion, the accompanying performance statement of the Greater Shepparton City Council for the year ended 30 June 2016 presents fairly the results of council's performance in accordance with the *Local Government Act 1989* and the *Local Government (Planning and Reporting) Regulations 2014.* 

The performance statement contains the relevant performance indicators, measures and results in relation to service performance, financial performance and sustainable capacity.

At the date of signing, we are not aware of any circumstances that would render any particulars in the performance statement to be misleading or inaccurate.

We have been authorised by the council and by the *Local Government (Planning and Reporting)* Regulations 2014 to certify this performance statement in its final form.
