

Assessment Report Summary – Community Sustainability Grant – Round Two – 2022/2023

Applicant	Project Description	Amount Requested (GST Free)	Amount Awarded (GST Free)
Sacred Heart Primary School	Organic Waste is Gold – request for funds for organic waste bins for school classrooms to divert waste from landfill.	\$730	\$730
Transition Tatura	Communities Shaping the Future: Cooking All Electric – request for funds to host film festival in Tatura showcasing the benefits of cooking with induction cooktops rather than gas.	\$3000	\$3000
Horses for Hope	Sustainability Upgrade – request for funds to upgrade inefficient heaters and coolers to energy efficient reverse cycle split system.	\$2580	\$2580
Bunbartha Recreation Reserve	Lighting upgrade to increase efficiency – request for funds to upgrade old lighting at the centre and reserve to more energy efficient lighting.	\$2906	\$2906
Murchison Primary School	Cold Water Tap for Murchison Primary School – request for funds to install a cold filtered water tap to divert waste from landfill.	\$2985	\$2985
Dookie Arts Group	Dookie Native Garden – request for funds to revitalise and extend the existing native gardens at the base of the Dookie Silo and alongside the Dookie CWA Gardens.	\$3000	\$1000
Kialla Hall Committee	Electric Oven and Cooktop – replacement of existing gas cooktop and oven with electric cooktop and oven to reduce emissions.	\$2684	\$2684
St Mels Primary School*	School Community Garden – request for funds to develop a school vegetable garden.	\$3000	\$0
Congupna Football Netball Club**	Computer and Ipad upgrade – request for funds to purchase laptops and ipads to reduce paper use on game days and for club communications.	\$3000	\$0
Totals:		\$23,885	\$15,885

*The project for St Mels Primary School is not recommended for funding as this project does not provide benefit to the whole community, and there are alternative more suitable funding sources available through the Junior Landcare or Stephanie Alexander Kitchen Garden Grants

**The project for the Congupna Football Netball Club is not recommended for funding as the embodied energy and emissions from the purchase of electrical equipment outweighs emissions from paper usage. A more sustainable outcome is to use 100% recycled paper and dispose of this waste paper in the recycle bin.
